Secretary - Cheryl Wagner

Debbie Malafsky prepared this information (below) about Swimming Saves Lives Foundation.

WHY PV Should Match SSLF Gifts

- The purpose of Swimming Saves Lives Foundation is to raise awareness and serve as a resource for programs that provide adults the ability to learn to swim
- SSLF doesn't take into consideration the location of the program.
- We want our donors to get the most from their donation, so each grant application application is reviewed for ROI.(How many non-swimmers will learn to swim versus cost to teach them and number of volunteers used)
- In this most recent grant application cycle, there was one application from PV.(I'm available to discuss why we didn't select this application)
- Restricting your donation has good intentions, but are you interested in donating if application wasn't showing a good ROI, or that it was a for profit organization or there were problems that you weren't aware of (ie, law suit, or embezzlement of funds) would you still want your funds going to that group just because they are in your geographic region?
- What if SSLF didn't receive an application from your geographic region how would you propose to use the money?

The following are some of the criteria we use to select the grant recipients:

1. Is the organization a non-profit (if no, 99.9% of the time we eliminate them)
2. Are they part of USMS?
3. Is there a USMS program where they can continue to swim?
4. What is the instructor to student ratio?
5. How many adults will have the opportunity to learn to swim? (If there's not a good ROI then we won't fund them)
6. How many volunteers do you use?
